AGENDA

01	Project Overview & Goals
02	Information Architecture & Competitive Analysis
03	Heuristic Evaluation Highlights
04	User Personas & Journey Map
05	Interview Findings & Pain Points
06	Style Guide Direction
07	Recommendations & Next Steps
08	Prototype

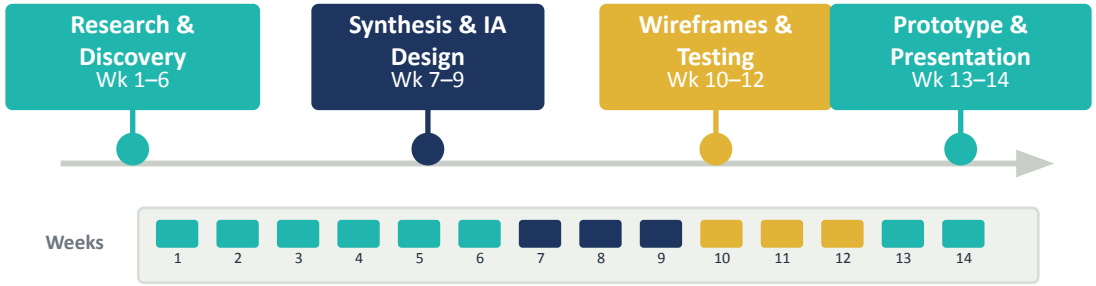

PROJECT OVERVIEW

Deliverables

- Website audit & key findings summary
- Competitor benchmark analysis
- Website prototype with improved design
- Design recommendations & next steps

14-Week Timeline

A phased roadmap from research to final prototype delivery

Each phase builds on the last, keeping research, synthesis, testing, and delivery clearly paced.

CURRENT INFORMATION ARCHITECTURE

⚠ Key Observations

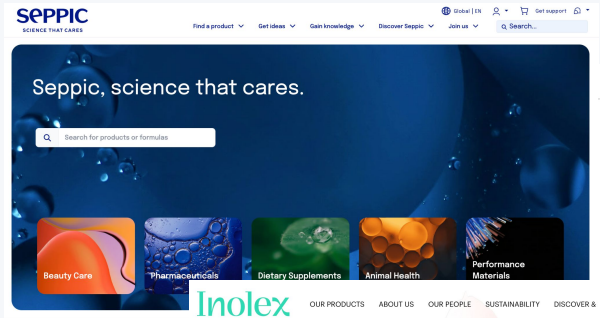

- Simple, shallow navigation — users must dig through subcategories to find content
- Products, Formulas, and Literature exist as disconnected silos
- No cross-linking between related content (e.g., a product's related formulas or literature)
- Sign-in feature is buried and hard to locate; cart functions more like a request form

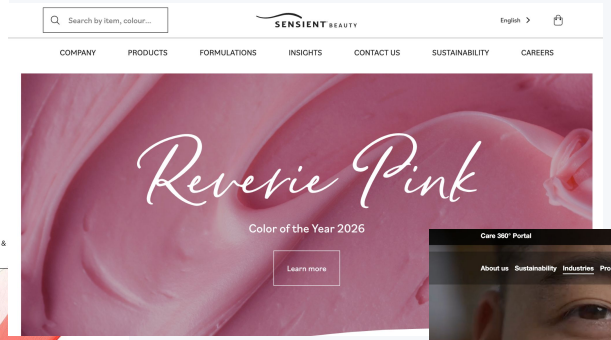

Competitive Analysis

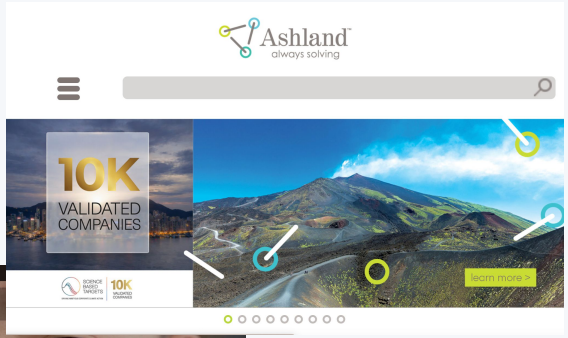

Key Gaps vs. Competitors

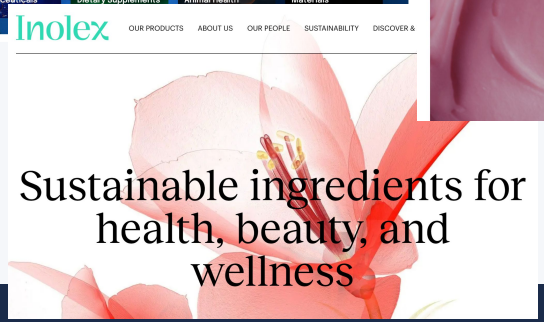

Kobo's website works as a technical reference database, but competitors deliver a more guided, intuitive, modern experience.

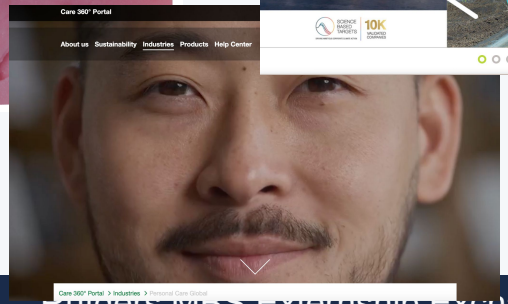

Benchmarked against: Seppic • Inolex • Sensient Beauty • BASF Personal Care • Ashland

Competitive Analysis

Key Gaps vs. Competitors

Navigation & IA

Kobo:
Simple, shallow navigation structure

Competitors:
Multi-tiered menus organized by function, application, and industry

Competitors reduce cognitive load and improve product discoverability

Search & Filtering

Kobo:
Keyword search + sortable tables only

Competitors:
Faceted filters (application, chemistry, compliance, sustainability), autocomplete

Kobo limits efficient exploration for technical users

Product Pages

Kobo:
Text-heavy tables with minimal visual hierarchy

Competitors:
Structured sections (Benefits, Applications, Technical Data), clear CTAs

Competitors support faster comprehension / decision-making

Competitive Analysis

Kobo Strengths vs. Weaknesses & Strategic Priorities

STRENGTHS

- Strong technical data access (SDS, literature)
- Comprehensive product listings
- Functional database-style search
- Clear baseline categorization

WEAKNESSES

- No faceted filtering or product selector tools
- Limited visual hierarchy and modern UI patterns
- Educational resources separated from product flow
- Minimal contextual guidance or comparison tools

STRATEGIC IMPROVEMENT PRIORITIES

1. Implement faceted filtering (application, chemistry, compliance, sustainability)
2. Redesign product pages with structured sections & visual hierarchy
3. Integrate related formulas and literature within product pages
4. Add predictive search + autocomplete
5. Introduce icons/badges for certifications and sustainability
6. Improve homepage entry points for faster product discovery

SWOT ANALYSIS

STRENGTHS

- Strong IA with logical groupings
- Effective product pathway
- Useful product selectors
- Good alignment with expert users

WEAKNESSES

- Redundant navigation patterns
- Poor responsive design
- Buried sign-in feature
- Inconsistent search/sort
- Outdated visual design

OPPORTUNITIES

- Fix mobile/responsive layout
- Simplify navigation, add breadcrumbs
- Smarter search + filtering
- Modernize UI components

THREATS

- Competitors outperform on first impression
- Mobile issues drive user drop-off
- Hidden flows reduce engagement
- Outdated UI signals low innovation

HEURISTIC EVALUATION

Visibility of System Status

1

Match Between System & Real World

2

User Control And Freedom

3

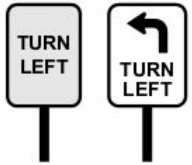

Consistency And Standards

4

Error Prevention

5

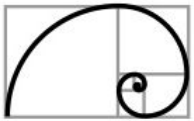

Recognition Rather Than Recall

6

Flexibility And Efficiency of Use

7

Aesthetic And Minimalistic Design

8

Help Users With Errors

9

Help And Documentation

10

HEURISTIC EVALUATION HIGHLIGHTS

Home
No loading indicators or feedback • No 'back' affordance • Text-heavy layout with minimal whitespace • No contextual help or FAQs

Products
Headers styled as links open PDFs without warning • No 'Back to Products' option • Empty searches give no guidance • Dense text, outdated hierarchy

Formulas
Column headers redirect instead of sorting • Sorting behavior inconsistent across pages • Unpredictable interface behavior

Cart
No real-time field validation • No warning before clearing form • Required fields not clearly indicated • No inline guidance

User Interviews

How We Gathered Insights

7 Interviews Conducted

30 Minutes Per Session

4 User Groups Represented

WHO WE TALKED TO

Lab Chemists / Formulators

Primary external users — need specs, SDS, technical data

Kobo Sales Force

Internal users — live catalog during customer visits

Regulatory Contacts

Seek SDS and compliance data; often misdirected

Global Distros/Reps

Need regional info; benefit from visual content

INTERVIEW FINDINGS

6 stakeholder & user interviews conducted

01 Homepage Fails First Impressions

Described as '**ugly**' and 'from the 80s' — too much text, no clear value statement

02 Navigation is Fragmented & Deep

Multiple subcategory layers to reach content; products, formulas, and literature feel siloed

03 Formulation Search is Broken

Cannot search effectively by keyword, ingredient, or product name — users give up and email reps

04 Literature Section is Overlooked

Employees and past customers alike were **unaware it existed**; docs are not discoverable

05 Sample Request Flow Needs Work

Cart requires **re-entering** contact info every time; most customers bypass it and email directly

06 Customers Leaving for Competitors

UL Prospector captures Kobo's own customers — they never visit the Kobo website

WHAT WE HEARD

> *Subcategories inside subcategories make content feel hidden.*
>
> — on Navigation

> *The search is too specific, you have to spell the name exactly right.*
>
> — on Search

> *The homepage is absolutely ugly. It makes no statement.*
>
> — on Visual Design

WHAT'S WORKING

Not everything needs to change — stakeholders were clear about what to keep.

Product Catalog Layout

The all-trade-names-on-one-page format outperforms many competitor sites

No Login Required to Browse

Open access to product and formulation data is a competitive differentiator

Pearl / Product Selectors

The interactive selector tool is useful for navigating a large SKU catalog

Literature & SDS Library

The ability to pull SDS and COA documents quickly is critical for lab staff

TOP RECOMMENDATIONS

P1	Flatten navigation: ≤ 3 clicks to any content	5/6 interviews
P1	Modernize homepage with dynamic 'What's New'	5/6 interviews
P1	Smart search with filters & cross-content results	5/6 interviews
P1	Unified resource hub (literature + video + podcast)	4/6 interviews
P2	Product photography: especially pearls & effect pigments	3/6 interviews
P2	Streamlined sample request: 2–3 clicks with saved info	3/6 interviews
P3	Regional distribution info & SPF calculator access	2/6 interviews
P3	Login system for sensitive content (SDS, specs, SPF tool)	2/6 interviews

Prioritized by frequency of mention and breadth of user impact

USER PERSONAS

Frances

Formulation Chemist

Develops & ptimizes formulas for suncare, complexion, or color. Needs to browse formulas by application and jump from formula to relevant products and literature.

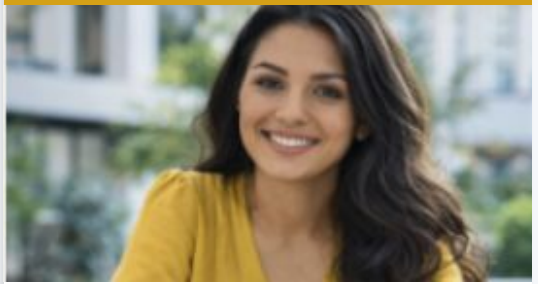

Sam

Internal Sales/Tech Rep

Uses the site as a live catalog during customer visits. Needs up-to-date product info without PDFs, quick search, and easy link sharing.

Ana

Distributor / Ind. Agent

Represents Kobo and supports regional customers. Needs to confirm regional coverage, pull updated literature, and share brochures with prospects.

USER JOURNEY

FRANCES — FORMULATION CHEMIST | SAM — INTERNAL SALES / TECH SERVICE REP | ANA — DISTRIBUTOR / INDEPENDENT AGENT

	1. Awareness & Entry HOW THEY ARRIVE	2. Discovery & Search FINDING THE RIGHT THING	3. Evaluation ASSESSING FIT & DETAIL	4. Access & Action GETTING WHAT THEY NEED	5. Follow-Up RETURN & RELATIONSHIP
GOALS	**FRANCES** Find a specific ingredient or start exploring Kobo's catalog for a new project **SAM** Pull up the site quickly mid-conversation with a customer **ANA** Confirm Kobo is the right point of contact; check regional coverage	**FRANCES** Search by INCI name, trade name, or application category; find relevant formulas **SAM** Locate a specific product or formula to share immediately **ANA** Browse for specific products her customers are asking about	**FRANCES** Compare ingredient specs, review SDS/technical literature, check formula suitability **SAM** Confirm product details are accurate and current before sharing **ANA** Validate product availability and relevance for her region	**FRANCES** Download SDS/technical docs, request samples, contact Kobo team **SAM** Share a clean link or brochure PDF with customer; send sample request **ANA** Download up-to-date brochures; route inquiry to correct team	**FRANCES** Return for related ingredients; track samples or ongoing projects **SAM** Return to pull new materials; check for updated content **ANA** Stay current with new product launches and literature
ACTIONS	**ALL PERSONAS** Land on homepage via direct URL, Google search, trade show reference, or colleague share **FRANCES** Scans homepage for product categories and search entry point **SAM** Immediately reaches for search or product nav on mobile	**FRANCES** Uses Product Selector or search; filters by ingredient type, application, or category **SAM** Types product name in search; navigates product menu **ANA** Checks navigation for regional coverage or distribution info; searches product name	**FRANCES** Reviews product page specs, clicks to formulas, cross-references literature **SAM** Views product page; checks if brochure link is available and shareable **ANA** Reviews product details; visits Literature/Distribution sections	**FRANCES** Clicks to download SDS, submits sample request form, or emails tech team **SAM** Copies product URL, downloads PDF brochure, submits sample request **ANA** Downloads brochure; fills contact form or routes inquiry via distribution page	**FRANCES** Signs in (if feature is visible) to access saved items; returns for a related search **SAM** Bookmarks frequently used pages; checks for new formulas **ANA** Revisits Literature section; checks if distributor info is current
TOUCHPOINTS	**ALL** Homepage hero, primary navigation, search bar visibility	**ALL** Product Selector tool, search results page, category navigation, formula library index	**ALL** Individual product pages, formula detail pages, SDS links, technical literature tabs	**ALL** Download buttons, contact/sample request forms, brochure PDFs, sign-in portal	**ALL** Sign-in/account area, email follow-up, return visits, distribution network page
EMOTIONS	Frances Sam Ana Neutral / Purposeful	Frances Sam Ana Confused / Frustrated	Frances Sam Ana Mixed — Some Satisfaction	Frances Sam Ana Friction-Heavy	Frances Sam Ana Cautiously Satisfied
PAIN POINTS	**ALL** Outdated visual design creates low credibility on first impression vs. competitors **SAM** Homepage isn't optimized for mobile — layout breaks or distorts on small screens	**FRANCES** Search doesn't reliably surface results by INCI or trade name; unclear filters **ALL** Column clicks unexpectedly redirect pages with no clear back path; disorienting navigation **ANA** Distribution network/regional coverage info is hard to locate in navigation	**FRANCES** Too many clicks to reach SDS or technical literature; redundant nav patterns bury content **SAM** Product pages are not mobile-friendly; brochure links hard to copy cleanly on mobile	**FRANCES** Sign-in feature is buried — can't easily save or return to items **SAM** Sharing a clean URL is unreliable; mobile download experience is poor **ANA** No clear signal whether brochures/literature are the most current version	**ALL** No personalized or saved history — must start search from scratch every time **ANA** No notification or update system to alert her when new materials are posted
OPPORTUNITIES	**QUICK WIN** Modernize homepage: clear hierarchy, prominent search, confident visual identity **MOBILE** Responsive layout fix so Sam can use the site seamlessly on mobile from day one	**SEARCH** Improve search with INCI/trade name support, smarter filters, and visible sort controls **NAV** Add breadcrumbs and consistent back/return controls; remove redundant nav patterns **ANA** Surface Distribution Network clearly in primary nav for regional agent workflows	**FRANCES** Streamline product → formula → literature path to 2–3 clicks max **SAM** Persistent shareable URLs; mobile-optimized product cards with clear brochure CTA	**SIGN-IN** Make sign-in visible and valuable: saved products, download history, sample tracking **ANA** Timestamp or "Updated" badge on literature and brochures to signal currency **SAM** One-tap share/copy for product links on mobile; cleaner mobile download flow	**RETENTION** Saved searches or a simple "recently viewed" feature to speed up return visits **ANA** Email alerts or an "What's New" page for new product/literature releases **ALL** Streamline contact/sample request confirmation with clear next-step messaging

USER JOURNEY: KEY PAIN POINTS

Awareness *Neutral*	Outdated design creates low credibility vs. competitors
Discovery *Frustrated*	Search too literal; unclear filters; column clicks redirect unexpectedly
Evaluation *Mixed*	Too many clicks to reach SDS/literature; redundant navigation buries content
Action *Friction*	Sign-in is hidden; mobile download experience is poor; no saved history
Follow-Up *Cautious*	No personalization or saved items; users restart from scratch each visit

STYLE GUIDE DIRECTION

5 options explored — converging on a Navy / Teal / Gold palette

COLOR SYSTEM

Navy Deep

Primary — 60%
Layout • Nav • Headers

Teal

Secondary — 30%
Links • Data • Badges

Gold Light

Tertiary — 10%
CTAs • Highlights • Accents

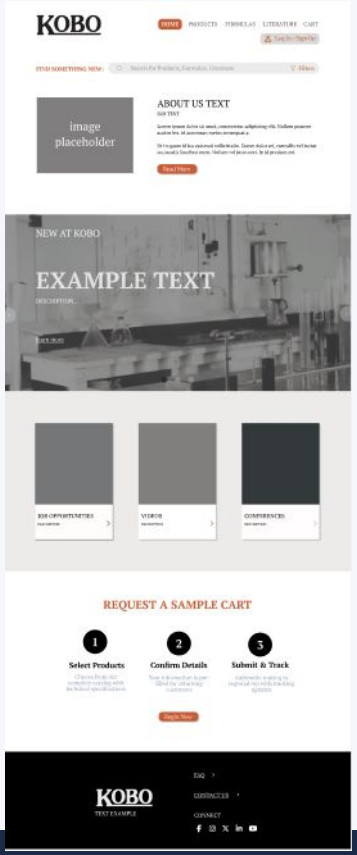

TYPOGRAPHY (Fonts from Figma Font Library)

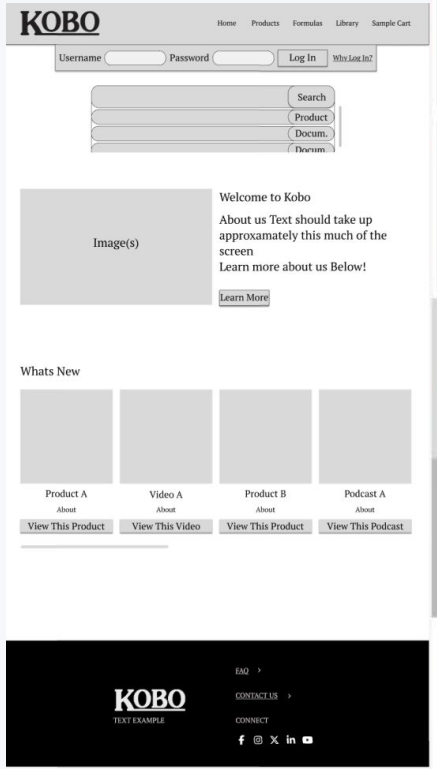

PT Serif	Display (Bold or Regular)/ H1–H3 — Serif — Authoritative, scientific, professional
Roboto	Sub-Header(Light/Italic) / Sans-serif — Soft, Clean, readable
Inter	Body/ Sans-serif — Clean, readable

DESIGN PRINCIPLES

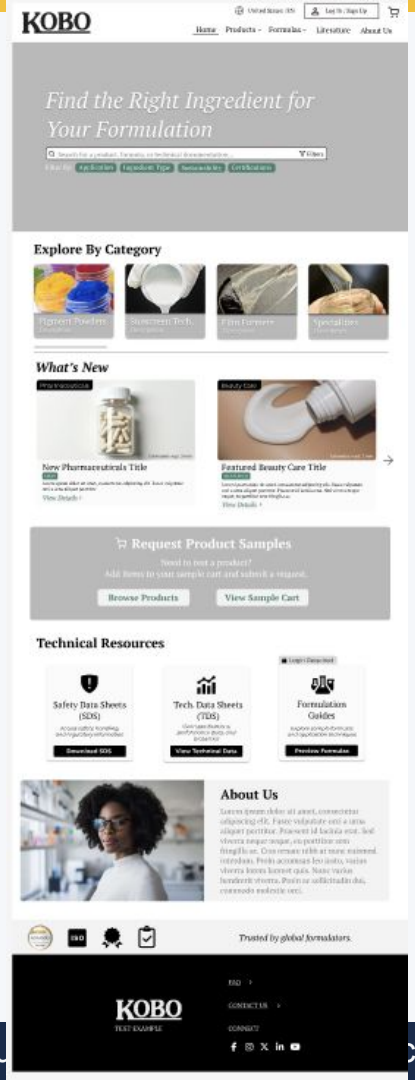

- Professional trust — navy conveys authority
- Technical clarity — teal highlights data and actions
- Focused attention — gold for CTAs only
- Modern, scannable layouts with visual hierarchy

So What?: Business Impact

How will this make a difference for Kobo?

These improvements create a better experience for technical users while reducing friction for Kobo's internal teams.

→ **Faster product discovery**
Users can reach products, formulas, and literature more quickly.

@ **Fewer rep emails**
Better self-service means fewer basic information requests to staff.

\+ **Improved conversion**
A simpler sample-request flow can increase completed requests.

* **Stronger first impression**
A more modern interface improves credibility against competitors.

\# **Better usability for teams**
Sales reps and distributors get quicker access to current content.

Business value at a glance

Experience improvements support discoverability, credibility, and operational efficiency.

Success Metrics

How will this make a difference for Kobo?

How to measure success

Track these metrics after launch to evaluate whether the redesign improves efficiency and usability.

Use website analytics, search logs, and form completion data.

Reduced clicks to key content
Users should reach products, formulas, and documents in fewer steps.

Search success rate
More successful searches with fewer dead ends or abandoned lookups.

Sample request completion rate
A simpler flow should increase completed sample requests.

Literature / SDS access rate
Track whether users find and open technical documents more often.

Time to find a product or formula
Measure how quickly users can locate the right information.

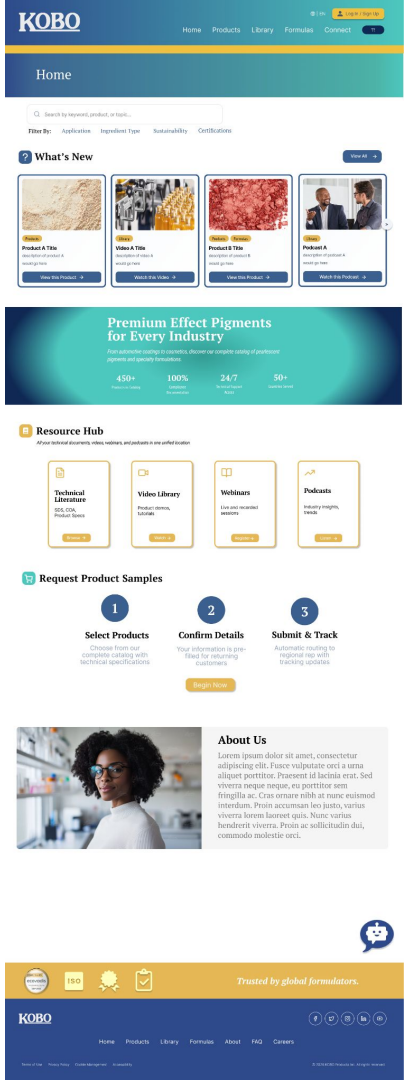

Actionable and measurable

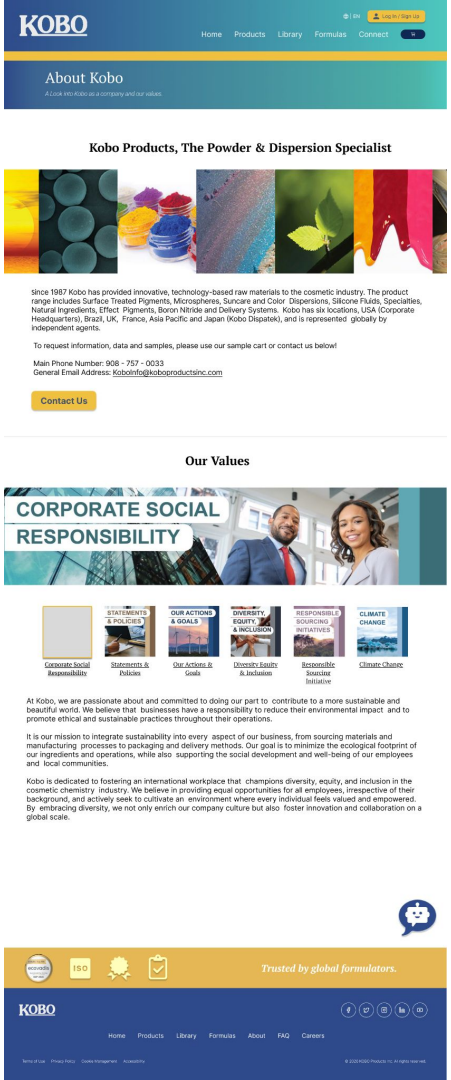

Key Learnings

- Applied human-centered design methods in a real-world project
- Conducted user interviews and heuristic evaluations
- Strengthened UX problem-solving for complex technical interfaces
- Strengthened collaborative design workflows
- Practiced translating research insights into design decisions
- Built scalable components and layouts in Figma
- Designed for technical B2B users and workflows
- Presented solutions to stakeholders and mentors

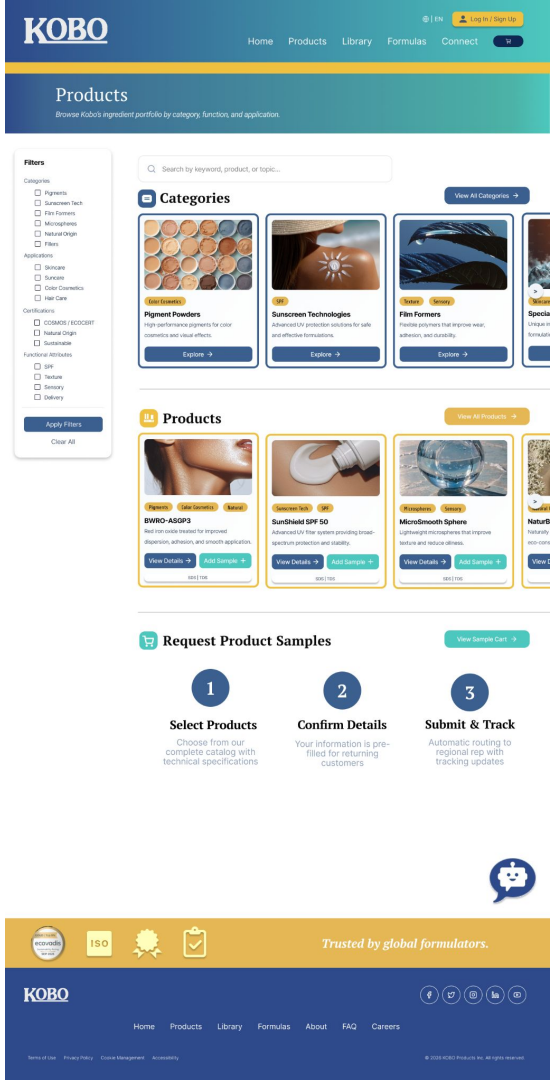

Any Questions before we move on to our Prototype?

About Kobo
A Look into Kobo as a company and our values.
Kobo Products, The Powder & Dispersion Specialist
since 1987 Kobo has provided innovative, technology-based raw materials to the cosmetic industry. The product range includes Surface Treated Pigments, Microspheres, Suncare and Color Dispersions, Silicone Fluids, Specialties, Natural Ingredients, Effect Pigments, Boron Nitride and Delivery Systems. Kobo has six locations, USA (Corporate Headquarters), Brazil, UK, France, Asia Pacific and Japan (Kobo Dispatek), and is represented globally by independent agents.

Our Actions & Goals
Diversity Equity & Inclusion
Responsible Sourcing Initiative
Climate Change
At Kobo, we are passionate about and committed to doing our part to contribute to a more sustainable and beautiful world. We believe that businesses have a responsibility to reduce their environmental impact and to promote ethical and sustainable practices throughout their operations.
It is our mission to integrate sustainability into every aspect of our business, from sourcing materials and manufacturing processes to packaging and delivery methods. Our goal is to minimize the ecological footprint of our ingredients and operations, while also supporting the social development and well-being of our employees and local communities.
Kobo is dedicated to fostering an international workplace that champions diversity, equity, and inclusion in the cosmetic chemistry industry. We believe in providing equal opportunities for all employees, irrespective of their background, and actively seek to cultivate an environment where every individual feels valued and empowered. By embracing diversity, we not only enrich our company culture but also foster innovation and collaboration on a global scale.
